Dear Gary,

In the last batch, 301:256 deals incompletely with a Nazi-type, Joachim Rudolph Roehricht. it is improbable that the series of reports ended on this page. Did you find the following pages irrelevant, worthless, or is this an oversight?

He worked for Knott's Berry Farm.

If there are additional pages, when you send me a copy would you also send one to Mr. Jason Silverman, 1640 Rhode Island Ave., nw, Washington, D.C., please?

Thanks,

HW

Dear Jay,

Keep the enclosed, stteched Thermofaxes if you'd like. As you can see, I'm following this through the friend who got the initial reports. Of course, we can go back to the Archives directly. I'm doing it this way because of time.
